MovieRecommendation / README.md

```
[ ]: # Telugu Movie Recommendation List Generator
```

This Python project allows users to:

- View Telugu movies
- Search movies by title
- Get recommendations based on genre

Concepts Used:

- Lists and Dictionaries
- Functions
- Modular Programming
- File Handling (modules)
- Input Validation

out put

Telugu Movie Recommendation App 1. View All Movies 2. Search Movie by Title 3. Search Movies by Genre 4.
